

AH-2 (Active)

The TESLA AH-2 is an active dual coil humbucker that features bar type ceramic magnets and plain enamel copper wire.

The AH-2 is our highest output powered active guitar humbucker that produces a heavy, thick, dark sound, great chords and screaming clear middle tones. This pickup will make you stand out, you'll be heard!

We feature another great TESLA innovation, meaning that our bridge pickup has 11% more windings than the neck pickup, this innovation enhances your playing style and let you scream when you have to!!!

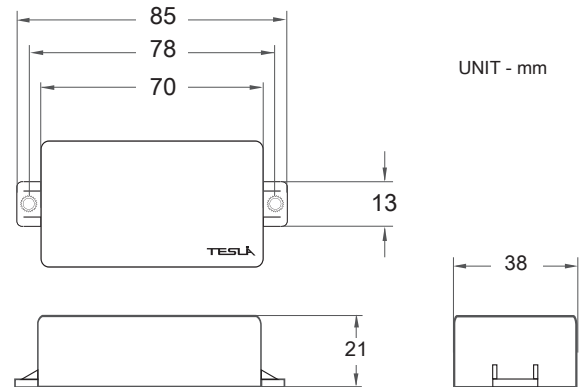

Our newly designed super efficient preamp features a power consumption of only 90 micro amperes. That means your 9 volt battery will last approximately 6,000 hours, which translates to that on a guitar that is using two AH-2 pickups, you play 5 hours a day, the batteries will last 1 ½ years!

ADDITIONAL PRODUCT INFORMATION

AH-2			
Specification			
Position	Neck	Middle	Bridge
Resonant Peak	2.6 kHz		2.5 kHz
Spacing	57 mm		57 mm
Output level	High		High
Type	Dual Coil		
Copper Wire	Plain Enamel		
Magnet	Ceramic(Bar)		
Battery Life	6000 Hours		
Current Consumption	90 Microamps		
Tone Chart			
4 Conductor Wire	Red-DC 9volt		
	White & Black-Hot		
	Green & Shield-Ground		
Pickup Color	Black		
Rock, Metal, Pop
