

Opus-1

The dream of every guitar player who seeks the ultimate sound is our OPUS-1 pickup! The OPUS line of pickups feature our latest innovation in pickup manufacturing, producing a pickup that we proudly present as the pickup that is "Better than hand-wound", the pickup that is TESLA wound!!

Performance, Precision, Sound and Tonal re-production are perfected because of our intensive research and our dedication to perfection!

The OPUS-1 features lows that are warm and well defined; the mid-range is smooth and delicate, highs that are clear and sharp but not too bright, power where and when you need it!

The OPUS-1 is carefully made with plain enamel copper wire and type Alnico 5 magnets. The coils are wax potted for stabilization to insure the complete, clean reproduction of sound.

Equipped with 4 wire leads that give the player endless tonal possibilities.
